O KLIJENTU

Our client is a leading and constantly growing software development company, with outstanding ideas that are the building blocks for their innovative product and success. Highly qualified, flexible employees from the insurance and IT sectors develop them further. They operate internationally with several locations in Switzerland, Germany, and Croatia.

For their office in Zagreb, our client is searching for dedicated, proactive, and highly professional **German Speaking Team Quality Assurance**.

The Position

Team Quality Assurance is responsible for the continuous development and maintenance of the assigned product module. Have an outstanding testing knowledge and ideally bring along several years of experience in handling enterprise standard products. Together with the team, provide optimal test coverage and a high degree of automation. Ensure that all quality criteria are met, from requirement to implementation.

Your responsibilities:

- Drive forward the improvement of professional test coverage within the team.
- Continuously expand and update test automation.
- Perform manual tests and participate in error analysis.
- Prepare test concepts and test plans and carry them out.
- Coordinate, together with the team, regression test and unit tests.
- Show the team what it should focus on in development to improve quality.
- Make sure that each product increment's quality requirements are met.
- Actively contribute to the Scrum artifacts and participate in Scrum meetings.

The Candidate

- College or university degree in IT / engineering
- Experience in Java test analysis, testing and test automation, and a knowledge of test tools (TestBench, QF-Test, SoapUI, Postman, Selenium, JMeter)
- Knowledge of SQL (PostgreSQL/Oracle), Git, Jenkins, Gradle is a plus
- Experience with OpenShift, Helm, Docker is a plus
- Experience in test methodology and concepts, test data management knowledge is a plus
- Team spirit, initiative taking, self-reliance, and structured approach to work
- Knowledge of agile software development
- Fluent in **German** and English

What's in it for you?

A dynamic position in a renowned IT company, working in a stimulating environment with a team of experts. The company offers an attractive compensation package and additional perks, a modern office environment combined with work-from-home in a hybrid model, as well as opportunities to travel and broaden your experience.
