O KLIJENTU

Our client is a private Swiss company with 20+ years of experience in supporting digital and IT operations. They are currently expanding their team, and seeking a skilled individual to join their data analytics team as a Data Engineer.

Your responsibilities

- Active involvement in building a new data platform on the cloud in an agile context
- Supporting the migration of the current data warehouse and the business intelligence solution to the cloud
- Responsible for the analysis of operative systems and for the creation of solution designs in the data environment
- Coordinating the implementation of data pipelines with different cloud technologies
- Working on projects to adapt and further develop our data warehouse systems
- Responsible for modeling and developing reporting (CMore / XL Cubed, Power BI).

The candidate

- Degree in information technology, computer science or equivalent engineering fields (if the person has extensive experience without the degree is also acceptable).
- 3-5 years of professional experience with ETL / ELT processes (ideally in Google BigQuery).

- In-depth knowledge of SQL and Python.
- Excellent experience with cloud technologies (Google Cloud or Microsoft Azure).
- Experience in the field of business intelligence or in a similar function, ideally in retail.
- Analytical skills to identify and solve complex problems.
- Team player, with excellent communication and effective collaboration skills.
- Fluent in speech and writing in German and/or English (German is preferred, but English is also acceptable).

What's in it for you?

- Flexible working hours and hybrid work model.
- Working in an international environment with access to resources, expertise, and opportunities for professional growth.
- A culture of continuous learning and development and a supportive team environment.
- Opportunities for advancing your career within our organization.

If you're ready to take the next step in your career and contribute to the future of retail innovation, send us your resume in English via the application link. We are looking forward to your application!
